

# Cyber Security & Information Assurance for Federal Government Agencies

In today's interconnected and IP enabled environment the need for cyber security solutions and information assurance is critical to mission accomplishment. Federal agencies (whether civilian or defense) rely on a variety of networks, systems and technologies to accomplish their mission.

L.R. Kimball has developed a robust suite of cyber security and information assurance services designed to help federal agencies throughout the lifecycle of their systems.

We employ certified security specialists with certifications such as: CISSP, CISA, Security+, and staff that function at all DoD 8570 levels including: IAT/IAM/IASE.

L.R. Kimball is uniquely positioned to help federal agencies with their cyber security and information assurance needs.
